Time to Completion for Teacher Education Graduates

Kansas State University

Spring 2020 Graduates

Candidates must meet a number of requirements to be admitted to the teacher education program. Most candidates are admitted to teacher education by the start of their junior year. In most cases, teacher education requirements can be completed in two years.

The following table includes elementary and secondary education majors in the College of Education. Data for teacher education graduates from programs outside the college are not included in this table (i.e., agriculture education, early childhood, family and consumer sciences, music education).

The table indicates that 83% of the graduates complete their program within two years of their admission to the teacher education program, and 97% of the graduates complete the program by two and a half years.

Summary for Spring 2020 Teacher Education Graduates:

Time to Completion after admission to Teacher Education	#	%	Cumulative #	Cumulative %
Within 2 years	122	83%	122	83%
2 ½ years	21	14%	143	97%
3 years	3	2%	146	99%
More than 3 years	1	1%	147	100%
